

Hi! Ross Curington here. Thanks for the quick download.  
I hope this is what you were looking for!

**When you pick Shaklee, you will know three things to be true. It is always safe. It always works. And it is always green.**

Here are just some of the ingredients you should not find in "green" products. They are all on Shaklee's "NO" list:

- NO Parabens
- NO Phenol or Cresol
- NO Lye
- NO Triclosan
- NO Phthalates
- NO Hazardous Acids (hydrochloric, Sulfuric, sulfamic, phosphoric)
- NO Sodium Lauryl Sulfate (SLS)
- NO Sodium Lauryl Ether Sulfate (SLES)
- NO 1,4-Dioxane
- NO Propylene Glycol
- NO Volatile Organic Cleaning Compounds (VOCs)
- NO Hydrochloric Acid
- NO Ammonia
- NO Sodium Hydroxide
- NO Butyl Cellosolve
- NO Formaldehyde
- NO Bisphenol-A
- NO Petroleum Distillates
- NO Toluene
- NO Formaldehyde
- NO Morpholine
- NO Chlorine Bleach
- NO MSG
- NO Dyes
- NO Trans Fats
- NO Artificial Sweeteners
- NO Toxic Inks
- NO Banned Substances
